Meeting Schedule

Next Meeting SEP 2024

Club meetings are held on the second Monday of each month.

Next meeting

Our regular monthly meeting will be held on **Sep 17th at 7:00 PM** in the Litchfield Fire Dept Community room

The Bullsheat is published by the Southern New Hampshire Radio Control Club (SNHRCC), Inc, a non-profit Academy of Model Aeronautics (AMA) Chartered Club #408, for the promotion of building and flying Radio Controlled (RC) model aircraft.

BullSheet

Greetings Folks!

I hope you are having a great summer despite the situation with our field. At this meeting, we will do some more planning on the Wagner Fun Fly for October at the Concord Skyhawks field. We will also have some more updates on how you can help with the efforts to regain our site. Also, in case you didn't get the memo, this meeting will be on Tuesday, September 17, since our normal date was not available at the firehouse.

See you Tuesday!

SOUTHERN NH RADIO CONTROL CLUB MEETING MINUTES LITCHFIELD FIRE COMMUNITY ROOM

Southern NH Radio Control Club Meeting Minutes

Aug 12th, 2024

Litchfield Fire Community Room

Officers in attendance: Mark, Ed, and John

Secretaries and Treasurer's reports were read and accepted. Ed reported that Clarence has been paid for the previous year's mowing of the flying field.

Brian gave a report on the attorney contact, we are still waiting for a reply to proceed with the next steps.

It was mentioned that Kara Roy, a supporter, and Hudson Selectman is running for a State Senate position.

There was discussion about a possible Darrell Wagner fun Fly to be held at Concord.

Brian suggested we gain access to the field to do tractor maintenance to be sure. it starts and runs after sitting for so long.

JOHN HAYS
SECRETARY

Hello SNHRCC Members,

I have been involved in the hobby for over 25 years, primarily flying RC helicopters. For more than 15 years, I have been purchasing bearings from www.rcbearings.com, a business that has been around for over 30 years.

Recently, when I visited the site to buy bearings, I discovered that the business was up for sale. I reached out to the owners to inquire about the specifics and learned that the warehouse was in NH.

After a couple of weeks, I finalized a deal to buy the business and took ownership on August 1st. It has been quite a journey so far.

www.rcbearings.com has served me well, as well as many others throughout the years and I am proud to continue delivering quality products with great customer service. Please feel free to contact me directly with any needs. Additionally, I plan to support as many events as I can.

Final approach -
You don't want to be No2 in the pattern

BILL RENAULT

About a year ago someone gave me an old airplane he got from a friend who got it from a friend that found it in an attic. It was pretty old. I've stripped it down to the airframe and have made some repairs. The engine is seized up. I haven't been able to get it to turn yet. I think it's some kind of cub but not sure. Has a slight wing dihedral whereas cubs should be flat

Here are a couple of pictures of John Marien's Pike Paradigm which made a couple of flights at the NHFT field launching from its Rabbit on Stilts launch dolly.

.....It also can be hand launched 😊

RC ACES

North Hampton, NH

Summer Auction

Saturday, Sept 7TH

Setup and viewing @ 9:00 am
Auction Starts @ 11:00 am
Admission: \$2.00 per person

The Recreational UAS Safety Test (TRUST)

<https://www.youtube.com/watch?v=ZklBwvy6gZc>

This video explains the TRUST Test REQUIREMENT.

<https://trust.modelaircraft.org/>

This is the Course/test site.

ABOUT THIS TRAINING

WELCOME TO THE RECREATIONAL UAS SAFETY TEST (TRUST)

The Academy of Model Aeronautics is an **FAA-approved Test Administrator of The Recreational UAS Safety Test** (TRUST).

TRUST is a collaboration between the FAA and industry to provide TRUST and educational safety material to Recreational Flyers.

Recreational flyers can access the TRUST here by clicking START below!

Upon completion of the test recreational flyers should print or save a digital copy of their completion certificate and keep it on their person when they fly. The Academy of Model Aeronautics cannot re-issue your completion certificate if it is lost. The FAA cannot re-issue your completion certificate. Should you lose your completion certificate, you will need to re-take TRUST and obtain a new certificate.

NOTAM

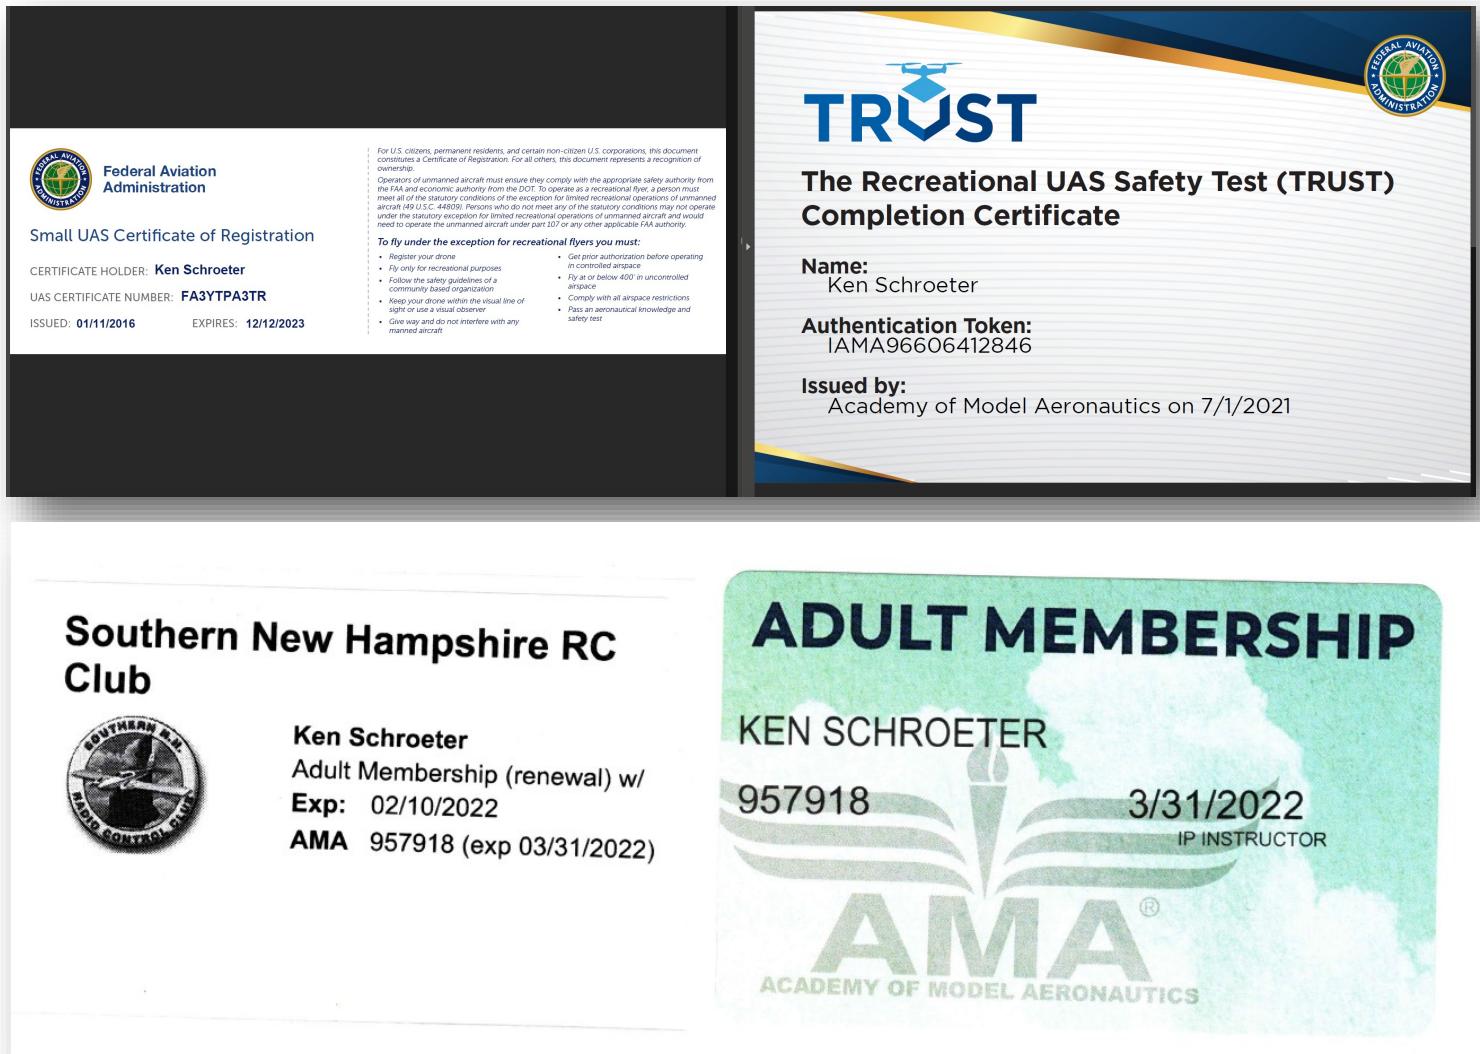

This is a requirement of the AMA and FAA, so please take the few minutes to take the course. The “test” is a set of slides explaining the knowledge base required, followed by a few “keep doing it until you get it right” questions that is the actual test. Its quite simple if you watch the slides. You will need to keep a copy of the certificate with you when flying. Once and done forever.

No whining,

REQUIRED FLIGHT DOCUMENTS

These are the required documents to fly at an AMA Chartered Field.

For the FAA you technically only need your FAA Number where it can be seen on your aircraft in plain view (i.e. not inside). I keep them in my radio box.

1. FAA Drone Registration Number/Card
2. TRUST Certificate
3. Current Club Card
4. Current AMA

SNHRCC Winter Meeting Spot!

Our meeting spot is in the Community Room of the Litchfield Fire Dept. Please pay attention to the parking restrictions that are made to accommodate the Volunteer Firefighters on call. **Violators will be mocked until they move their vehicles.**
